

SPEAK UP FOR YOUR MOUTH

OVER 50,000 NORTH AMERICANS WILL BE
DIAGNOSED WITH ORAL CANCER THIS YEAR

83%

SURVIVAL RATE WHEN IT'S CAUGHT EARLY

A VELSCOPE ORAL HEALTH EXAM
TAKES JUST 2 MINUTES

WHEN IT COMES TO ORAL CANCER, SILENCE CAN BE DEADLY.

The VELscope Vx oral health exam is a simple, painless procedure that enhances the visualization of oral tissue abnormalities—including oral cancers—sometimes before they're even visible to the naked eye. Be sure to ask your dentist for a VELscope Vx oral health exam today. Because oral cancer can be a silent killer...and it's up to you to give your mouth a voice.

Enhanced Oral Assessment
